DMNIS Studio Deployment Licences Minor Release Upgrades		
(Client Access, Web App, JavaScript Web App, JavaScript Mobile App)		
Example: OMNIS Studio v5.1 to v5.2 for same deployment type		
** These are available free of charge for supported developers only		**
DMNIS STUDIO SOFTWARE DEVELOPMENT KIT (SDK) Licences * Licence for 1 developer for Linux, MacOS or WinOS * See Notes for details.		
		6205
OMNIS Studio v6 Standard Edition SDK [1 Developer] Includes Omnis DML, OmnisSQL & SQLite DAMs, your choice of MySQL or PostareSQL DAM (** specify DAM when	2	\$295
ordering), Studio IDE, Omnis VCS, oXML, and a single user (CAL) Client Access Licence for testing purposes. (** The CAL		
may not be deployed to an end user and is not upgradable)		
inay not be deployed to dirend does and is not approadable,		
OMNIS Studio v6 Professional Edition SDK [1 Developer]	2	\$1,800
Includes Omnis DML, OmnisSQL DAM, multi-threaded DAMs, Studio IDE, Web App Server, Omnis VCS, oXML, as well as a single user		, ,
(CAL) Client Access Licence, and single user CAL Web App Server Licence for testing purposes. (** The CAL may not be deployed to a end user and is not upgradable)	an	
OMNUC Charlie of Characterist Communication Clients In Characterist II		64.050
OMNIS Studio v6 Javascript Serverless Client [one OMNIS Library]	2	\$1,850
To create serverless client applications you need to purchase a Serverless Client Licence, in addition to a Professional Edit	tion	
SDK. Each serverless development licence permits you to develop one (1) serverless mobile application (i.e. one Omnis library). Activating a serverless client licence will permit setting the serverless client mode (\$serverlessclient) for remote		
forms in one Omnis library. Each additional serverless mobile application will require the purchase of an additional		
serverless client licence.		
For each Serverless Client Licence that you purchase you can install and execute the mobile application wrapper on an		
unlimited number of mobile devices. Connection of a serverless client deployment to facilitate data or application conter	nt	
update will require the purchase of an appropriate WebApp Server licence on a per system or per user basis, as described	d	
above.

^{*} OMNIS (exclusive of its physical packaging) is Licenced. It is not sold, even if for covenience we make reference to words such as "sale" or "purchase" Please refer to the OMNIS Deployment Rules in your VAR Agreement.

Products & Services Effective March 2015 NOTES

Omnis Studio Major Release Upgrades

These releases contain significant new functionality and features.

Major Release Upgrades can be identified by a change in the first digit (example: Omnis Studio v5.2 to Omnis Studio v6.1).

For customers currently covered by a Support Programme the following applies:

- * SDK upgrades are available at the discounted rate appropriate to the Level of Support purchased.
- * Deployment Licence upgrades are available at the discounted rate appropriate to the Level of Support purchased.

Omnis Studio Minor Release Updates

These releases contain a larger number of bug fixes and may include a number of enhancements and new features such as changes to DAMs to support new versions of other vendors' software. Minor Release Updates can be identified by a change in the second digit while the first digit remains the same (example: Omnis Studio 6.0 to Omnis Studio 6.1).

For customers currently covered by a Support Programme the following applies:

- SDK updates are provided free of charge.
- * Deployment Licence updates are provided free of charge.

Omnis Studio Patch Releases

These releases consist of a small number of bug fixes and may involve the release of only certain components rather than a full version of the product. Patch releases can be identified by a change in the third digit while the first and second digits remain the same (example: Omnis Studio 5.0.0 to Omnis Studio 5.0.1).

Patch Releases are available for download only from TigerLogic's Web site (http://www.tigerlogic.com/tigerlogic/omnis/) and are free of charge for SDK and Deployment Licences.

Omnis Studio Product Documentation

Product documentation for the latest version of Omnis Studio is available in PDF format and may be downloaded from http://www.tigerlogic.com/tigerlogic/omnis/documentation/index.jsp

Omnis Studio Quick Start Self-Study Course

The Omnis Studio Quick Start Self-Study Course includes training used in our standard courses plus a sample data file. Customers currently covered by Level 2 Support Programme, may receive an electronic version of the training manuals in PDF format free of charge. Please contact us at training@dlagroup.com.au for more information.

Omnis Studio Training Courses

Supported developers may purchase the Omnis Studio training courses at a discounted rate. For more information on training and class schedules, please contact our Training and Education department at training@dlagroup.com.au for more information.

- 1 Run-time fees: Prices apply to all deployments of OMNIS against the native datafile or any other database.
- 2 New runtimes are required for OMNIS 7³ v7 / v8 and Studio v3.3, v4.0, v4.1, v4.2, v4.3, v5 & v6.
- 3 ALL deployments require Runtimes. If an OMNIS library is deployed or made available to a user over a server, a Runtime fee must be paid for each user of a library irrespective of the number of concurrent, SQL or NDF users. See Deployment Rules on the DLA Web site at http://www.dlagroup.com.au/omnis/licence.html
- 4 The ESU and EMU Licences are subject to Agreement between the Developer and DLA. Call DLA for information.
 - (A) ESU limited to 1,000 single user deployments in 1 year, limited to one application. Connection to Omnis datafile only.
 - (B) EMU limited to specified number of user deployments in 1 year, limited to one application.
- 5 DLA reserves the right to modify these prices at any time without notice. DLA will post new price lists at the commencement of every quarter unless new products are released or currency movements require otherwise.
- 6 Additional Courier fees may apply. All prices are in Australian Dollars (A\$) and include GST.
- 7 Orders are typically completed within 24 hours. However, DLA will NOT deliver later than five (5) business days after placement of an order.
- 8 Upgrade fees are payable by Level 2 Supported Developers for all non-supported SDKs.
- 9 TigerLogic have a NIL return policy once a Runtime or SDK code has been delivered it may not be returned for credit.
- 10 Runtime code consolidation (5 single users to 1 x 5 multi-user code) or Runtime code splitting (20 multi user to any smaller denominations) incurs a fee per Runtime code. Minimum fee is A\$110. Call DLA for a quote.
- 11 All SDKs must be under the same Level of Software Maintenance & Technical Support Programme.

Products & Services Effective March 2015 NOTES

Omnis Studio Standard Edition SDK

Standard Edition SDK Licence includes the Omnis DML, OmnisSQL DAM, SQLite DAM, your choice of MySQL or PostgreSQL DAM (** specify DAM when ordering), Studio IDE, Omnis VCS, and a single-user (CAL) Client Access Licence for testing purposes. (The CAL may not be deployed to an end user and it is not upgradeable).

Omnis Studio Professional Edition SDK

Professional Edition SDK Licence includes the Omnis DML, OmnisSQL DAM, multi-threaded DAMs, Studio, IDE, Web App Server, Omnis VCS, a single-user (CAL) Client Access Licence and a single-user Web App Server Licence for testing purposes. (The CAL and Web App Server Licence may not be deployed to an end user and it is not upgradeable).

Omnis Studio Deployment Licences

The following types of deployment licences are available: Omnis Studio Client Access, Omnis Studio Web App Server, Omnis Studio JavaScript Web App Server, and Omnis Studio JavaScript Mobile App Server. The type of deployment licence required is based on the type of application you have developed (Thick Client or Web/Mobile) along with the type of browsers (clients) that you expect to connect to your application. The deployment version of Omnis Studio, included in the software provided with your SDK Licence, contains all the necessary elements to run your application excluding the developer-only parts such as the Omnis IDE tools.

Omnis Studio Exclusive Single-User Annual Deployment Licence

Licence distribution agreement to deploy a limited, single-user Client Access Licence up to 1,000 times within a one-year period. The Client Access Licence includes Omnis DML, OmnisSQL DAM, SQLite DAM, your choice of MySQL or PostgreSQL DAM (specify when ordering), and is limited to one (1) application. Available to supported developers only. Support discounts do not apply. A signed agreement is required.

Omnis Studio Exclusive Multi-User Annual Deployment Licences

Licence distribution agreement to deploy up to a specified number of users within a one-year period. Available for Client Access and Web App Server Licence deployment types only. Deployment is limited to one (1) application only. Available to supported developers only. Support discounts do not apply. A signed agreement is required.

DLA OMNIS Studio/Classic 73 SOFTWARE MAINTENANCE & TECHNICAL SUPPORT PROGRAMMES

Annual fee includes one-year of technical support for one OMNIS Studio/OMNIS Classic 7³ SDK Licence for the named developer. Technical support is available by e-mail, telephone and fax during the hours of 9:00 AM to 5:00 PM Monday through Friday (excluding public holidays). Support must be renewed and paid for prior to expiry date otherwise List Price applies for re-entry.

Ordering Guidelines

Providing all of the necessary information on your orders will expedite the process of ordering product and services and ensure accurate fulfillment. Please e-mail to sales@dlagroup.com.au.

Fulfilment Notes

Orders are typically fulfiled within 24 hours unless received over a weekend or a Public Holiday.
